

APRIL NEWS

Week of April 26- April 30

A NOTE FROM YOUR TEACHER

Good afternoon Parents! Please find the spirit days for 4th quarter below. Letterland day is coming to Wake County! Please check [here](#) for more info! Next Wed. is asynchronous and we'll have a morning meeting at 9:15 to go over assignments. It is time to start ordering a yearbook if you'd like. Please find the flyer I emailed you yesterday if you'd like to order one for \$17.00. All ordering will be online.

OUR LEARNING FOCUS

Letterland: This week we learned about various "S" blends and how they are used in words!

Daily 5/Literacy: This week we focused on how to figure out the author's purpose. We did this by learning another strategy of finding the main idea by comparing it to a pizza. The pizza base represents the main idea and the toppings represent the supporting details.

Math: In math, we found the addends in various numbers from 5-10 and proved our thinking using the bar model, drawings, equations, and manipulatives.

Science: This week we learned about different kinds of motion by learning about various types of movement. We talked about how movement can be affected based on height, incline, and speed.

Positivity Project: This week we learned about Other People Mindset and how your actions and words have an effect on others.

IMPORTANT DATES
